**Visions of Venice in watercolour with Ian McManus**

Give your watercolour a lift of life and light working with highly sought after tutor Ian McManus capturing a simple yet expressive Venice cityscape, including gondolas, simple figures and reflections.

Ian will guide you stage by stage as you create a painting of this ever popular subject, helping students improve their understanding of simplifying composition and how to use details effectively so your picture has an interesting focal point. Direct confident brushwork and limited layers of painting will help you avoid muddled waters and fussy overworked pictures, elevating your artworks so they have a clarity and freshness synonymous with painting successful watercolours.
